Vitamins to VEGA!

12th. February. 2025

## VITAMIN

01

This week, affected by shipment pressure, Niacin and Niacinamide factories slightly adjusted prices downward. In fact, the current B3 raw material price has not fallen, and many factories reported that the price inversion caused losses. Export customers have active inquiries and their attention continues to increase, but their purchase willingness is not high. Follow up on factory quotations and shipments.

## AMINO ACID

02

Lysine: The trading market price adjusted in a narrow range, with 70% lysine quoted at USD660-710/MT. The price of lysine sulfate remained strong, mainly due to early orders. At present, the trading market has actively inquired about 70% lysine, and end users have signed orders one after another. It is expected that the price of lysine sulfate will remain strong in the future.

## API

03

Tylosin and Tilmicosin Phosphate: Major manufacturers have announced production cuts. This week, customers are actively inquiring about prices. The market inventory is limited, and prices may be adjusted soon. Please pay attention. Currently, the price of Tylosin Tartrate is around USD27.8/KG, and the price of Tilmicosin Phosphate is around USD33.2/KG.

Novate Bio disclosed that the company recently received the results of the GMP assessment inspection of raw materials issued by the Ministry of Food and Drug Safety of South Korea and the "Notice of Drug GMP Compliance Inspection" issued by the Jiangsu Provincial Drug Administration (Su Yaojian Yaosheng Notice [2025] No. 072). The company's Lianyungang factory's semaglutide raw material (workshop 106) and fulvestrant raw material (workshop 103) production lines passed the on-site inspection of the Ministry of Food and Drug Safety of South Korea, and the epalrestat raw material and sodium picosulfate raw material (workshop 103) production lines passed the on-site inspection of the Jiangsu Provincial Drug Administration.

## FOOD ADDITIVE

04

The price of potassium sorbate, a preservative product, remains stable, and all manufacturers deliver goods normally. The transaction price of potassium sorbate in the foreign market is around USD2.3-2.4/KG. In the short term, the price of potassium sorbate will stabilize.
